

Stormwater

Coloring Book

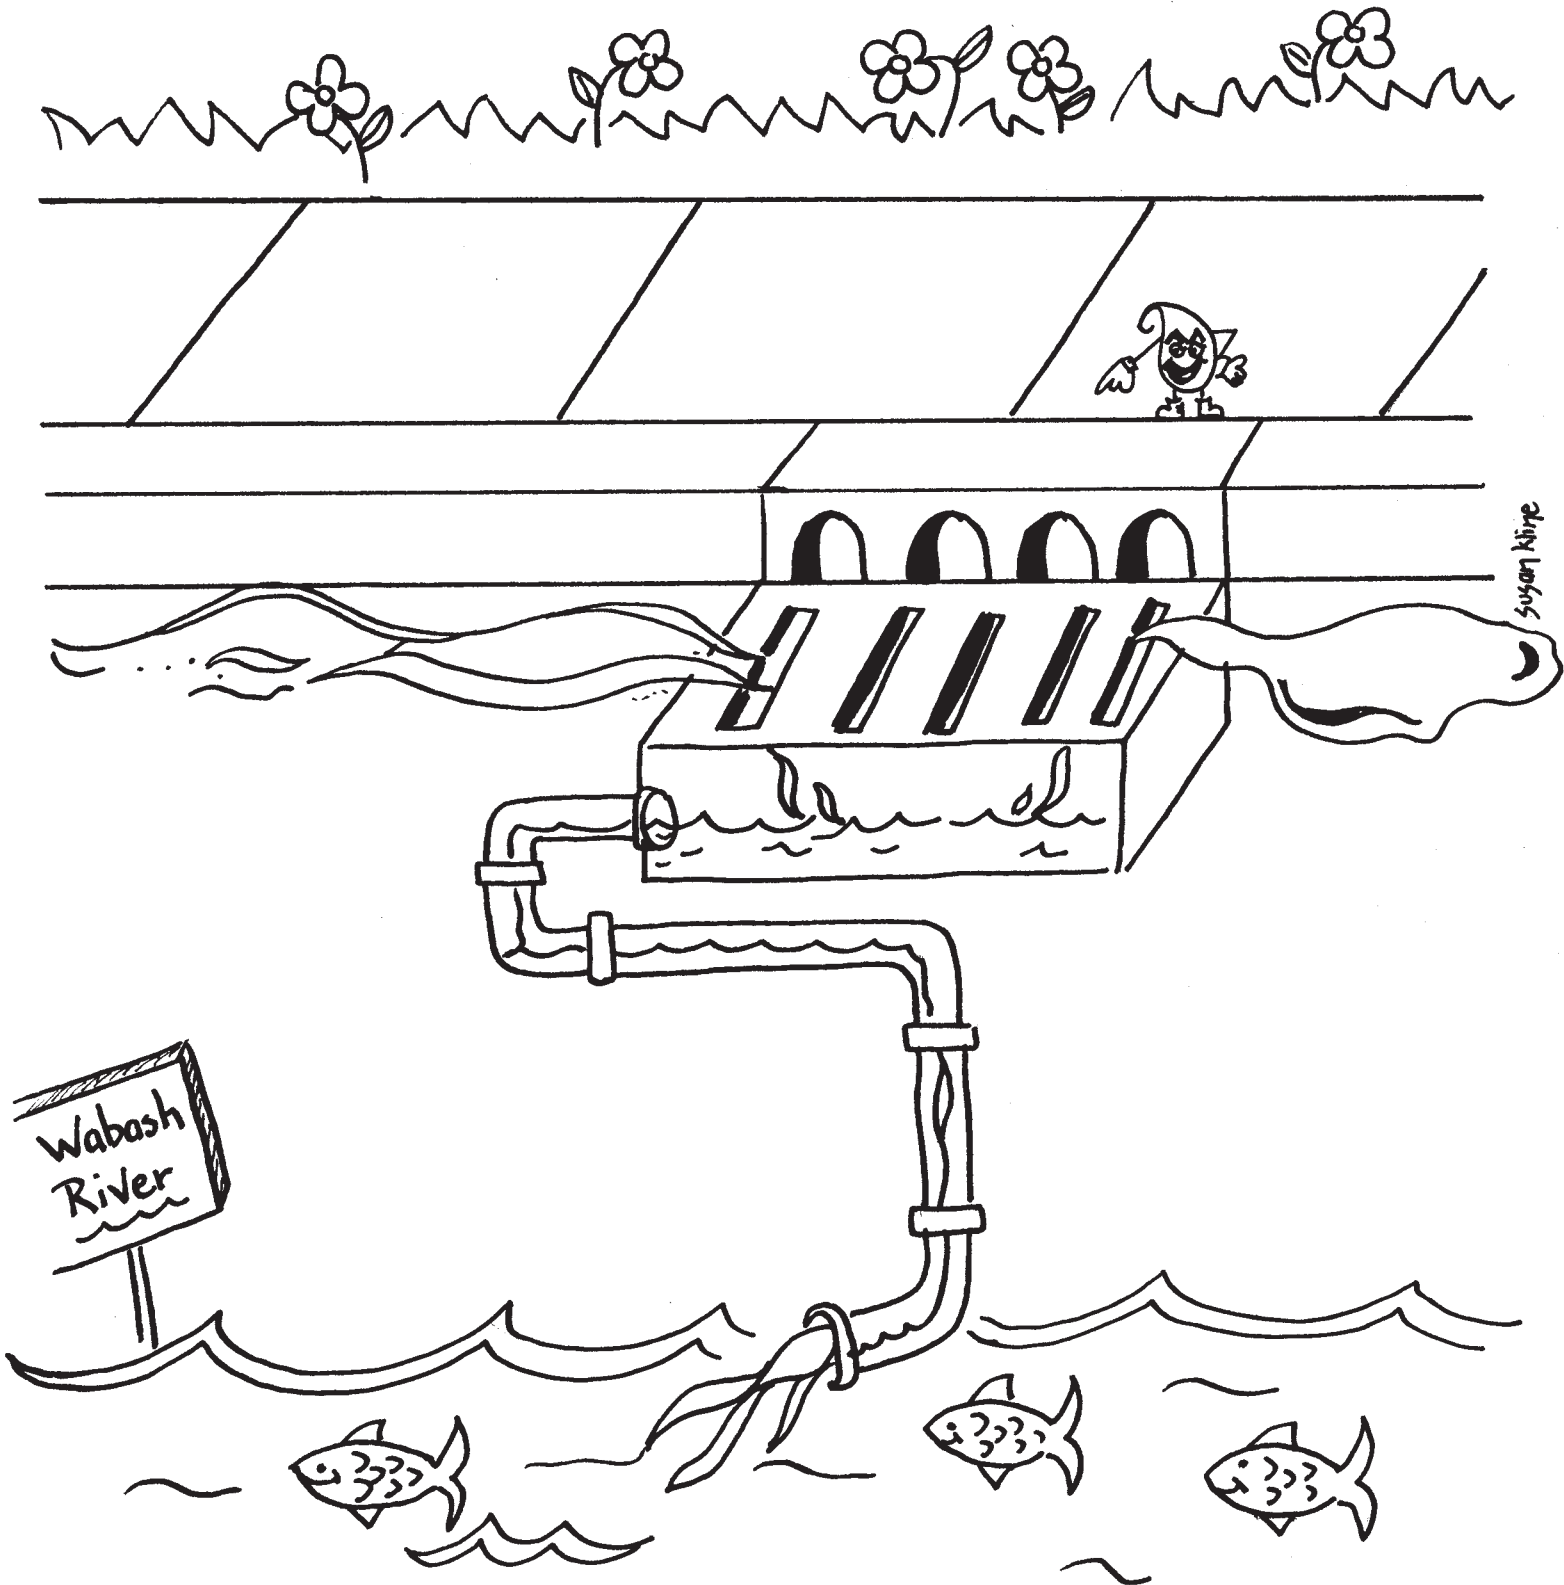

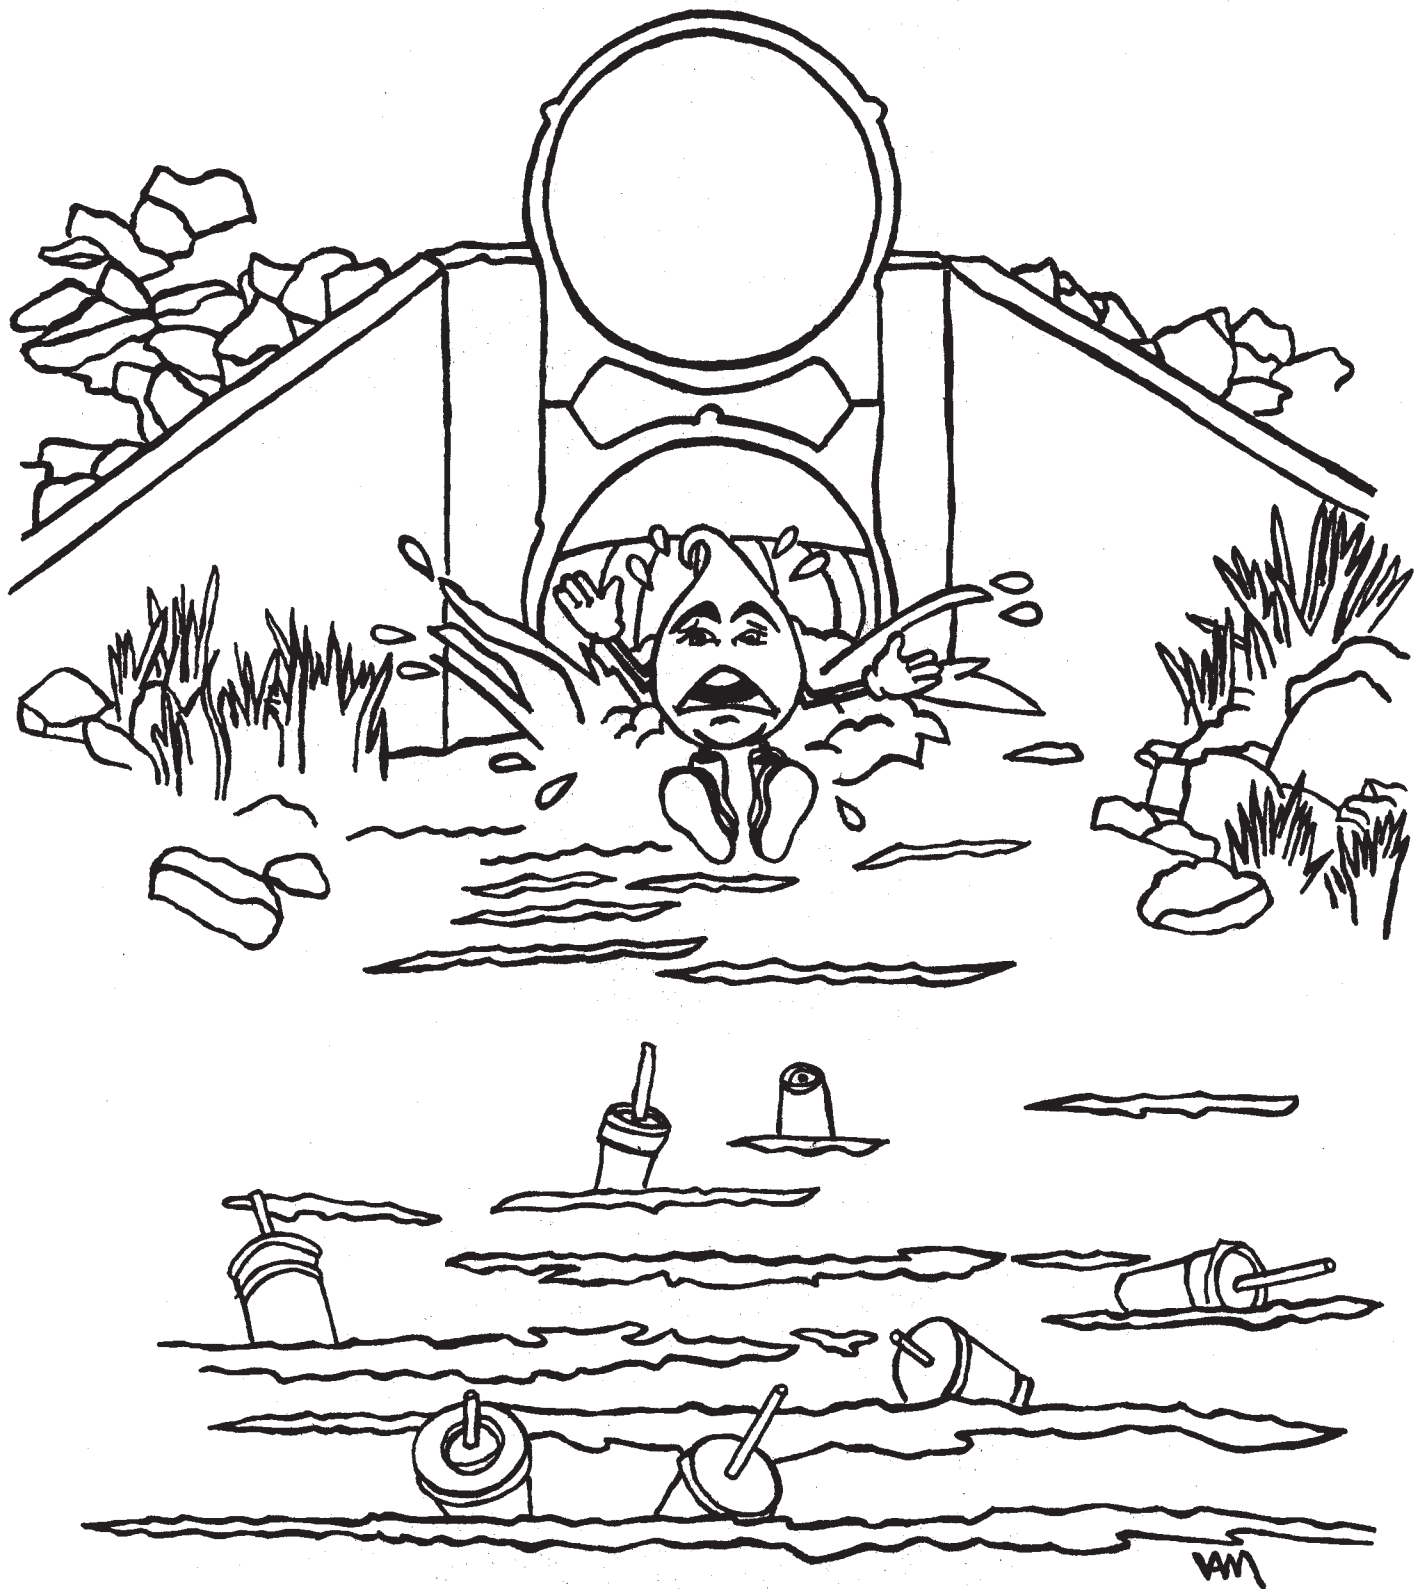

What is
STORMWATER?

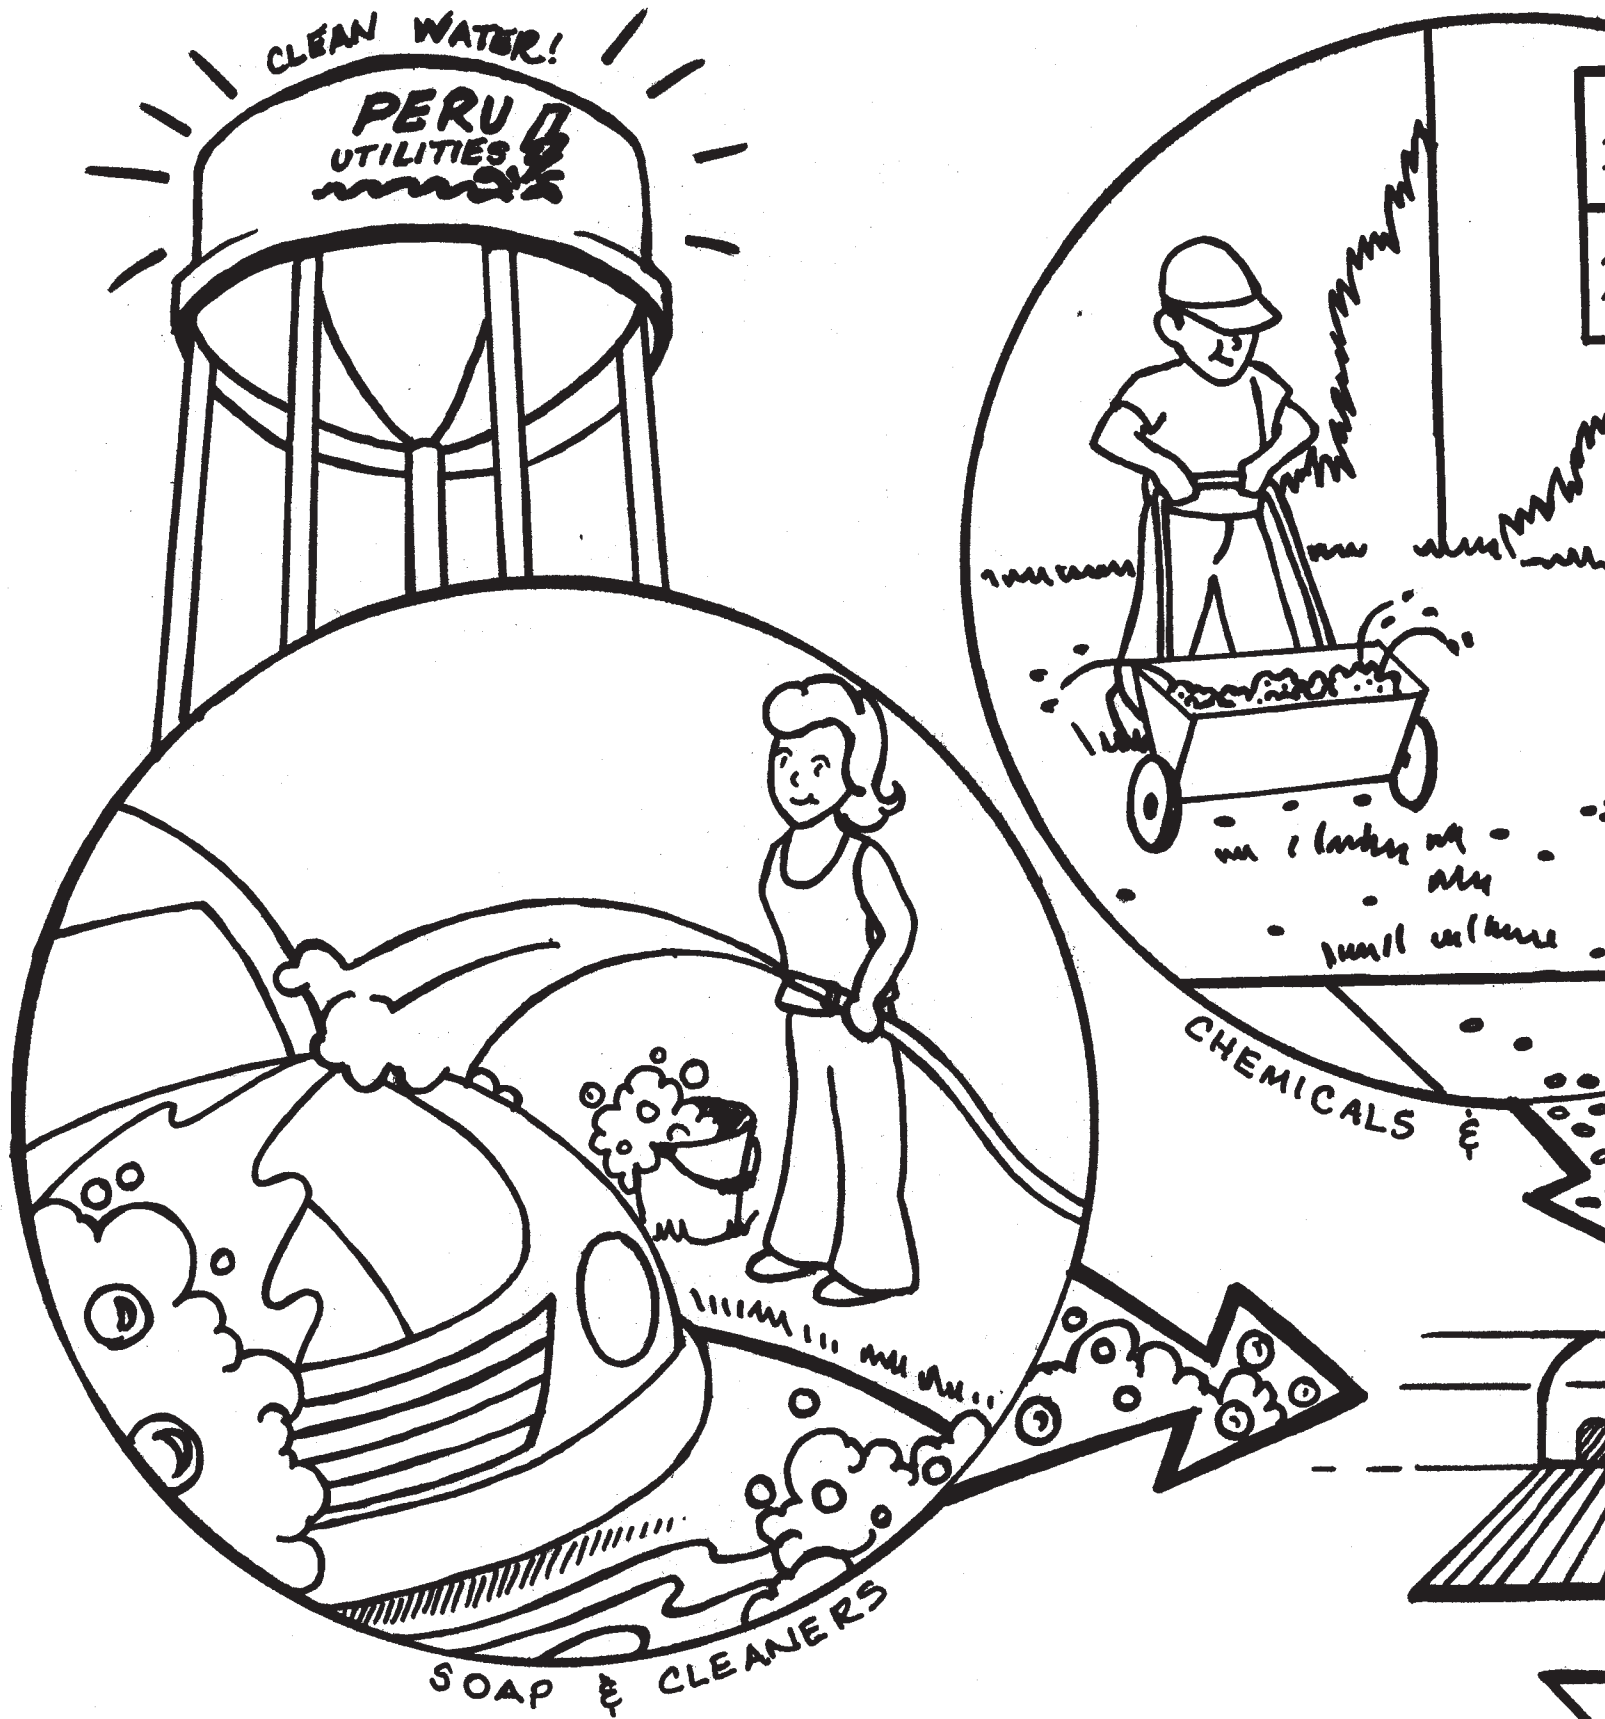

**Whenever it rains,
water runs off
driveways, rooftops,
sidewalks & streets
into the stormwater
drain system.**

**Water that goes to the
storm drain goes
straight to the river,
which means the
water remains untreated.**

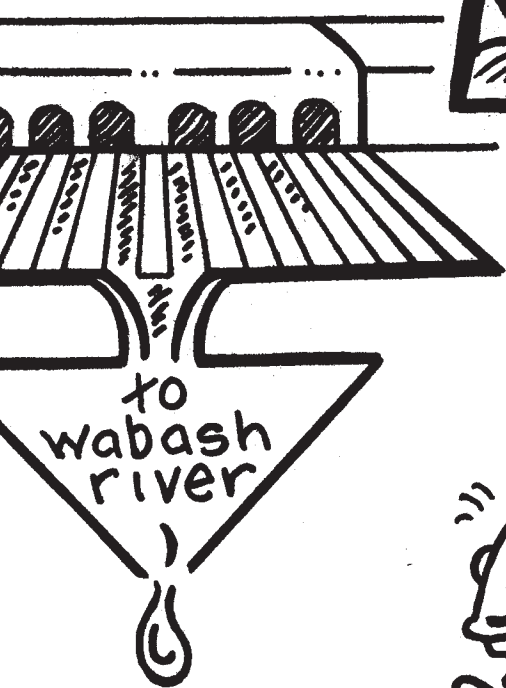

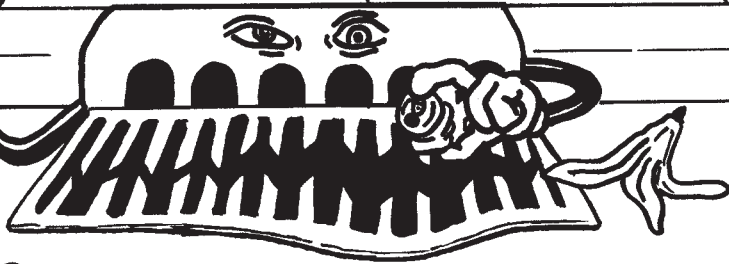

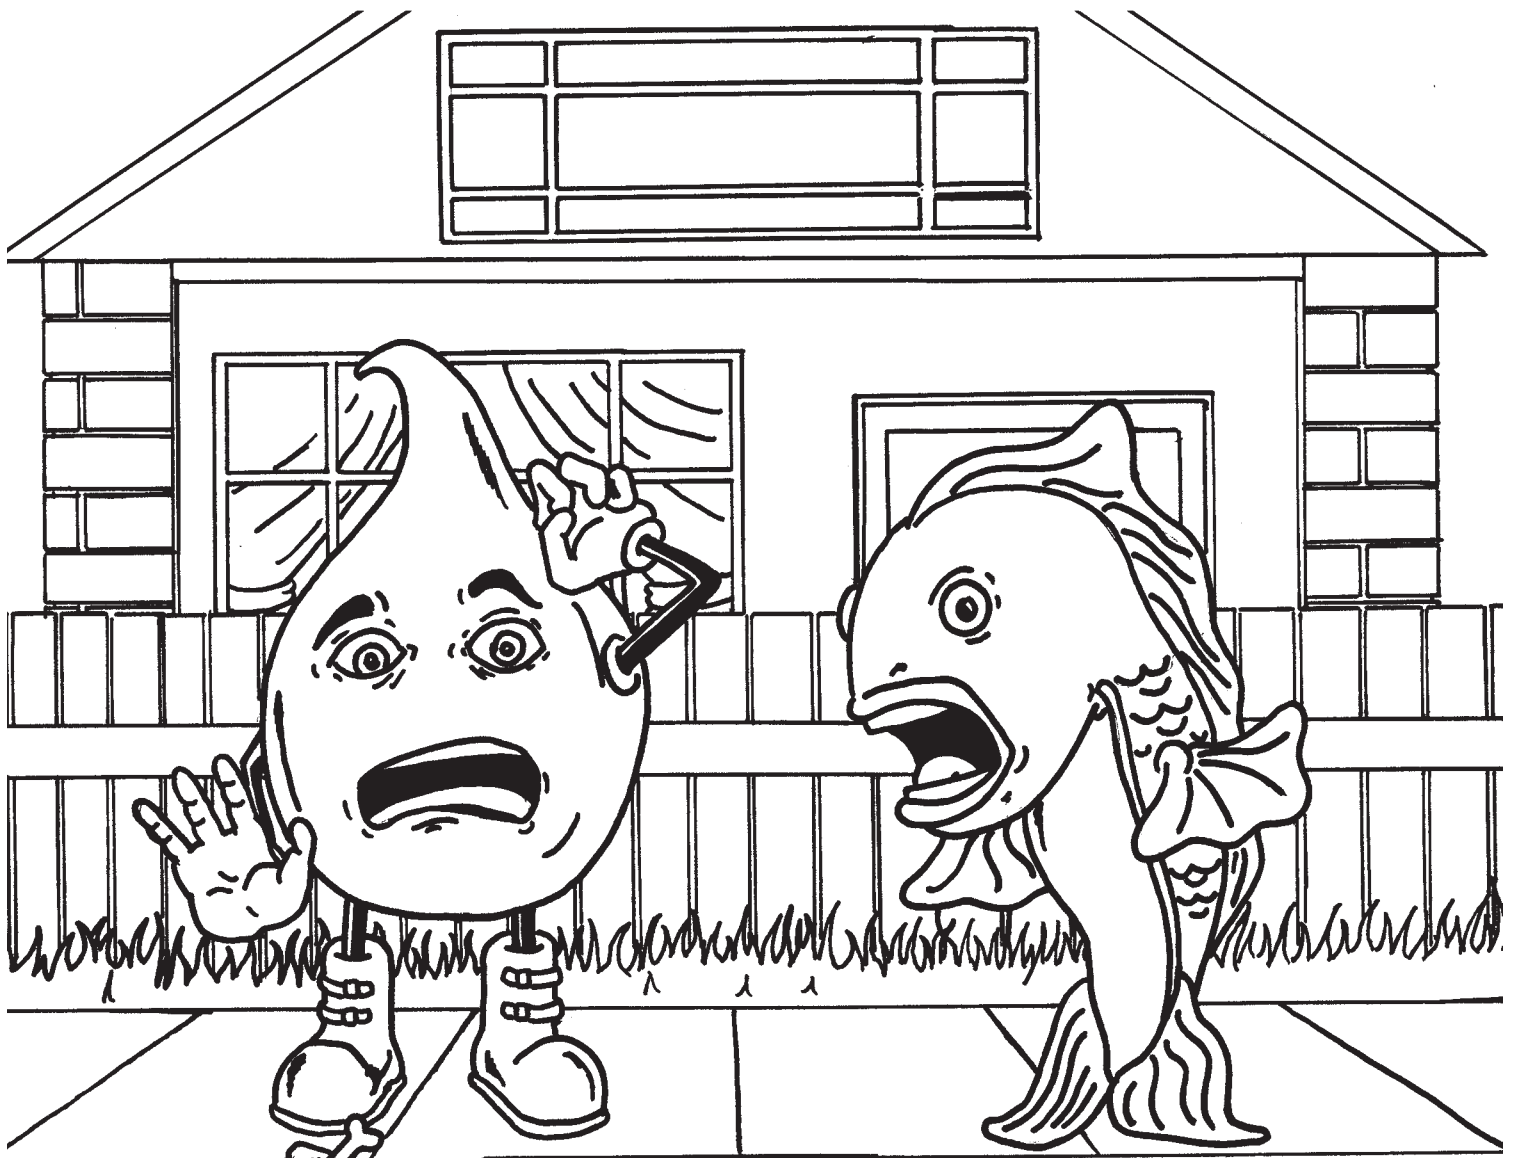

**Anything added to
stormwater is
pollution.**

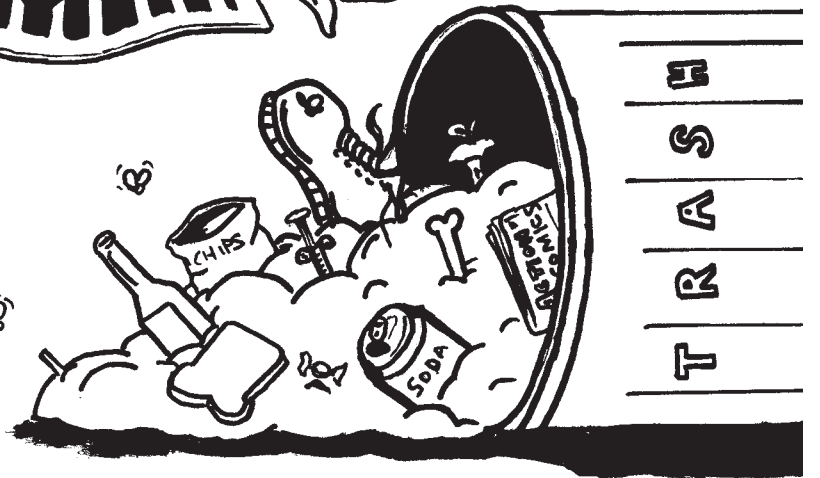

Water can pick up pollution and carry it to the river.

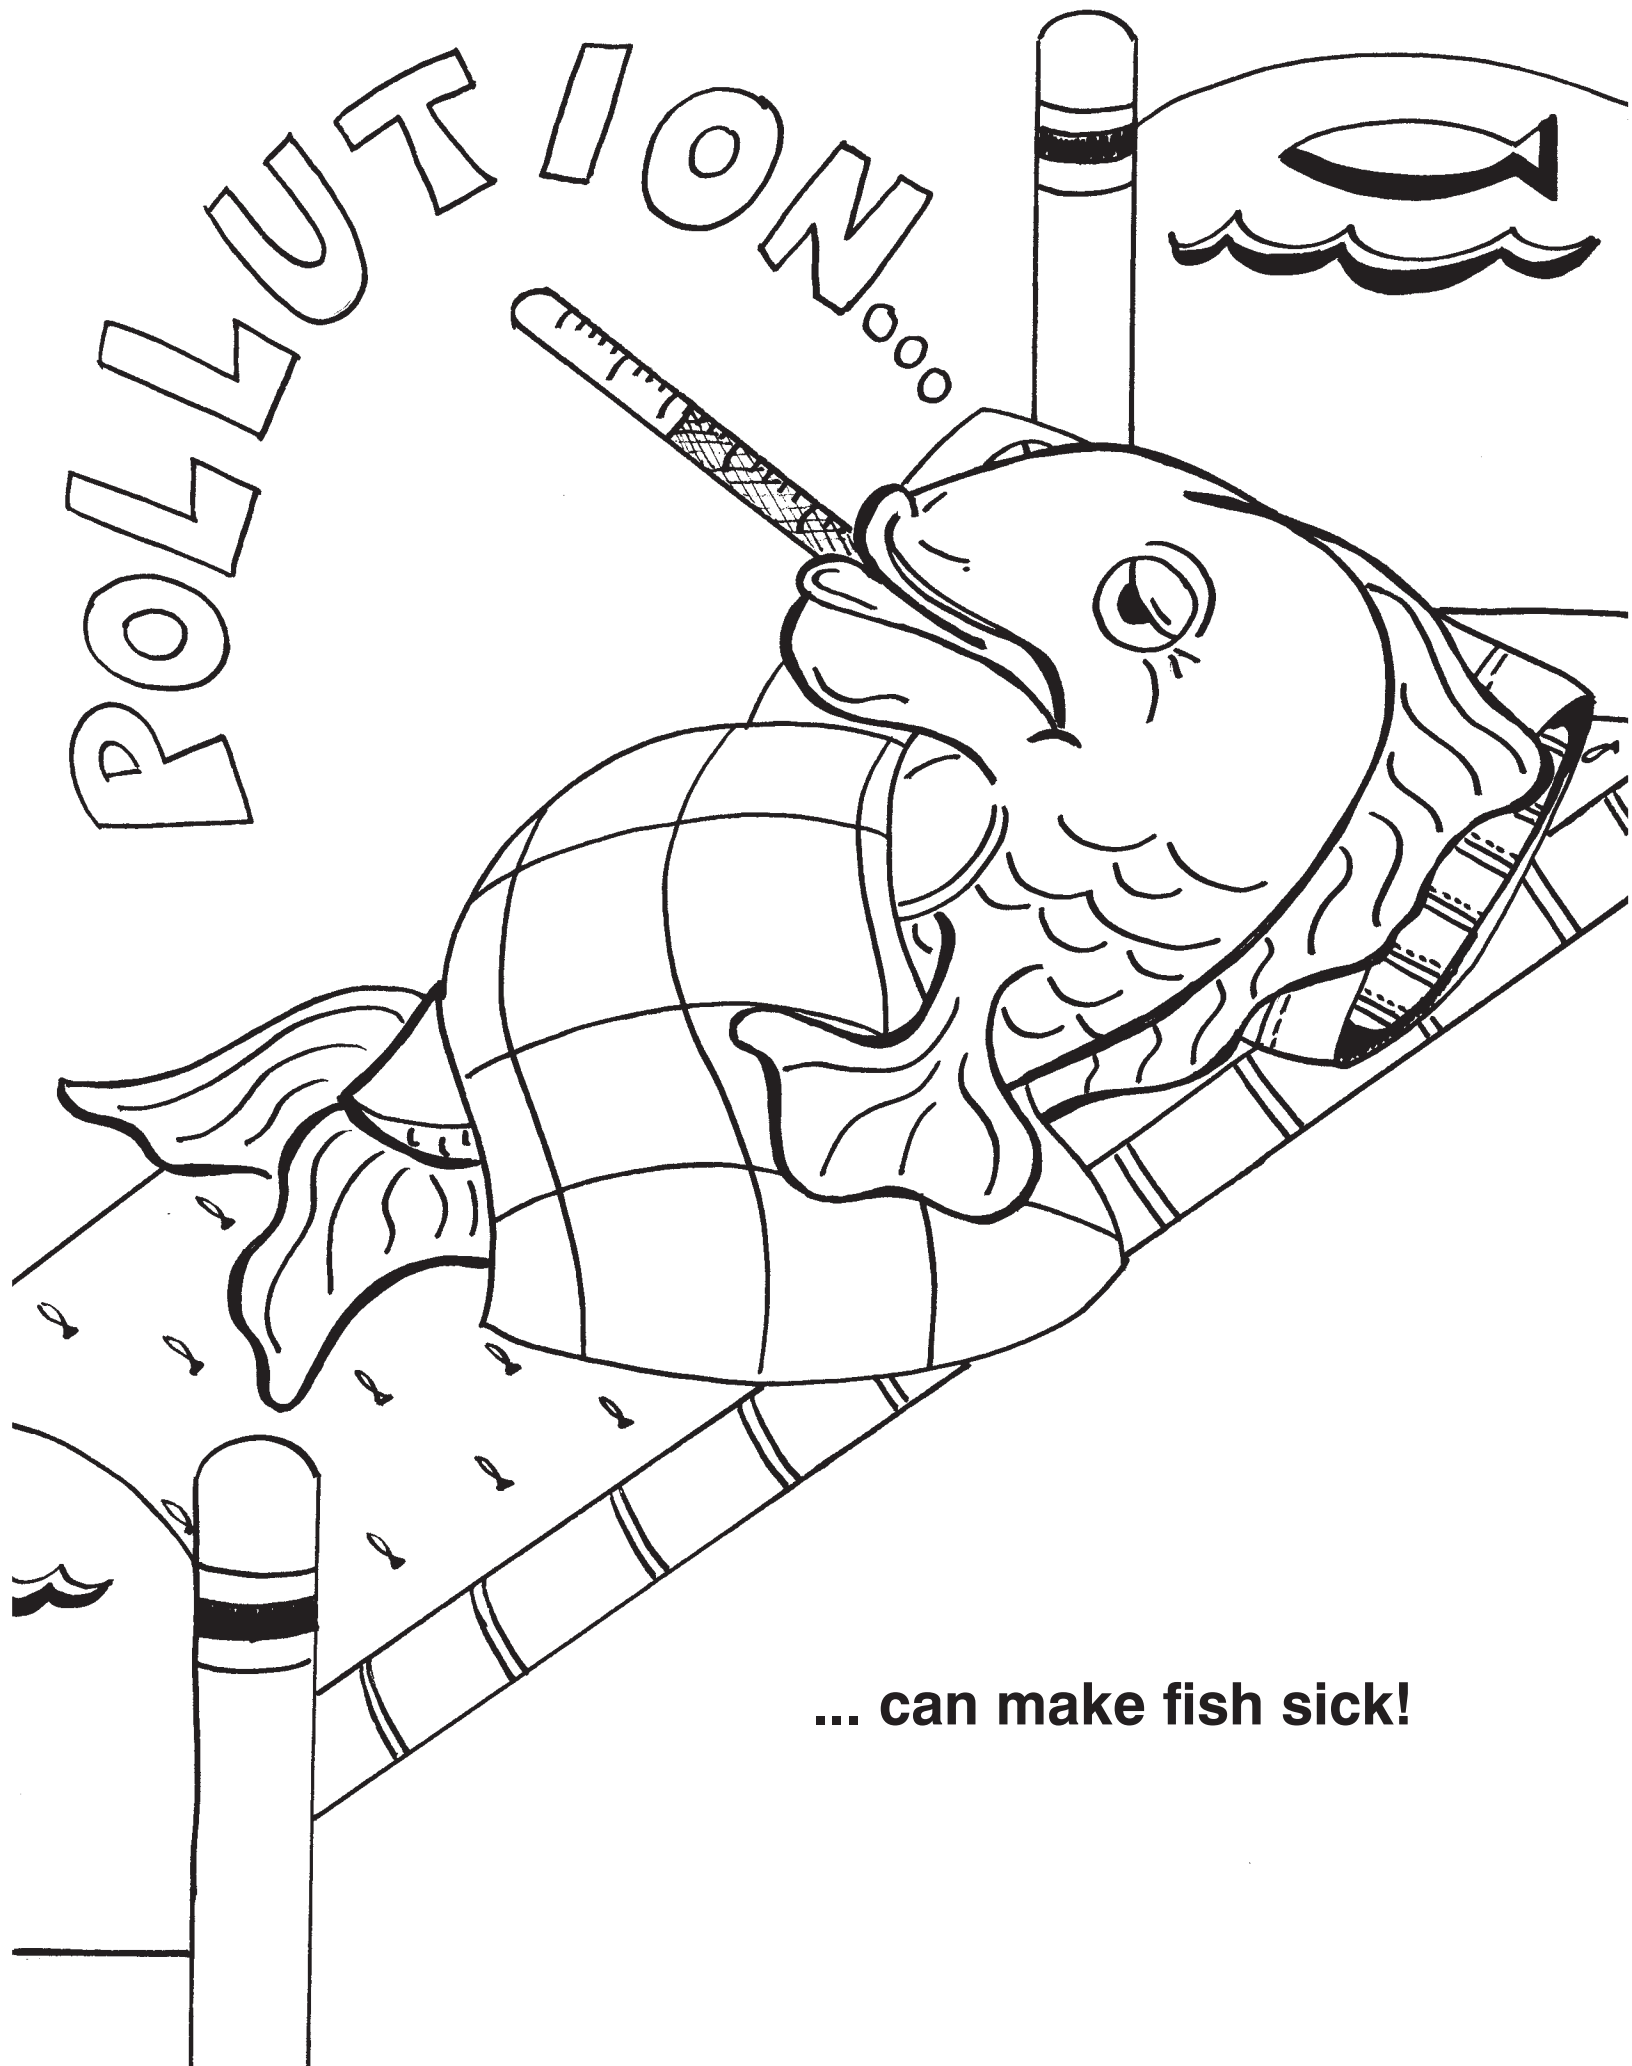

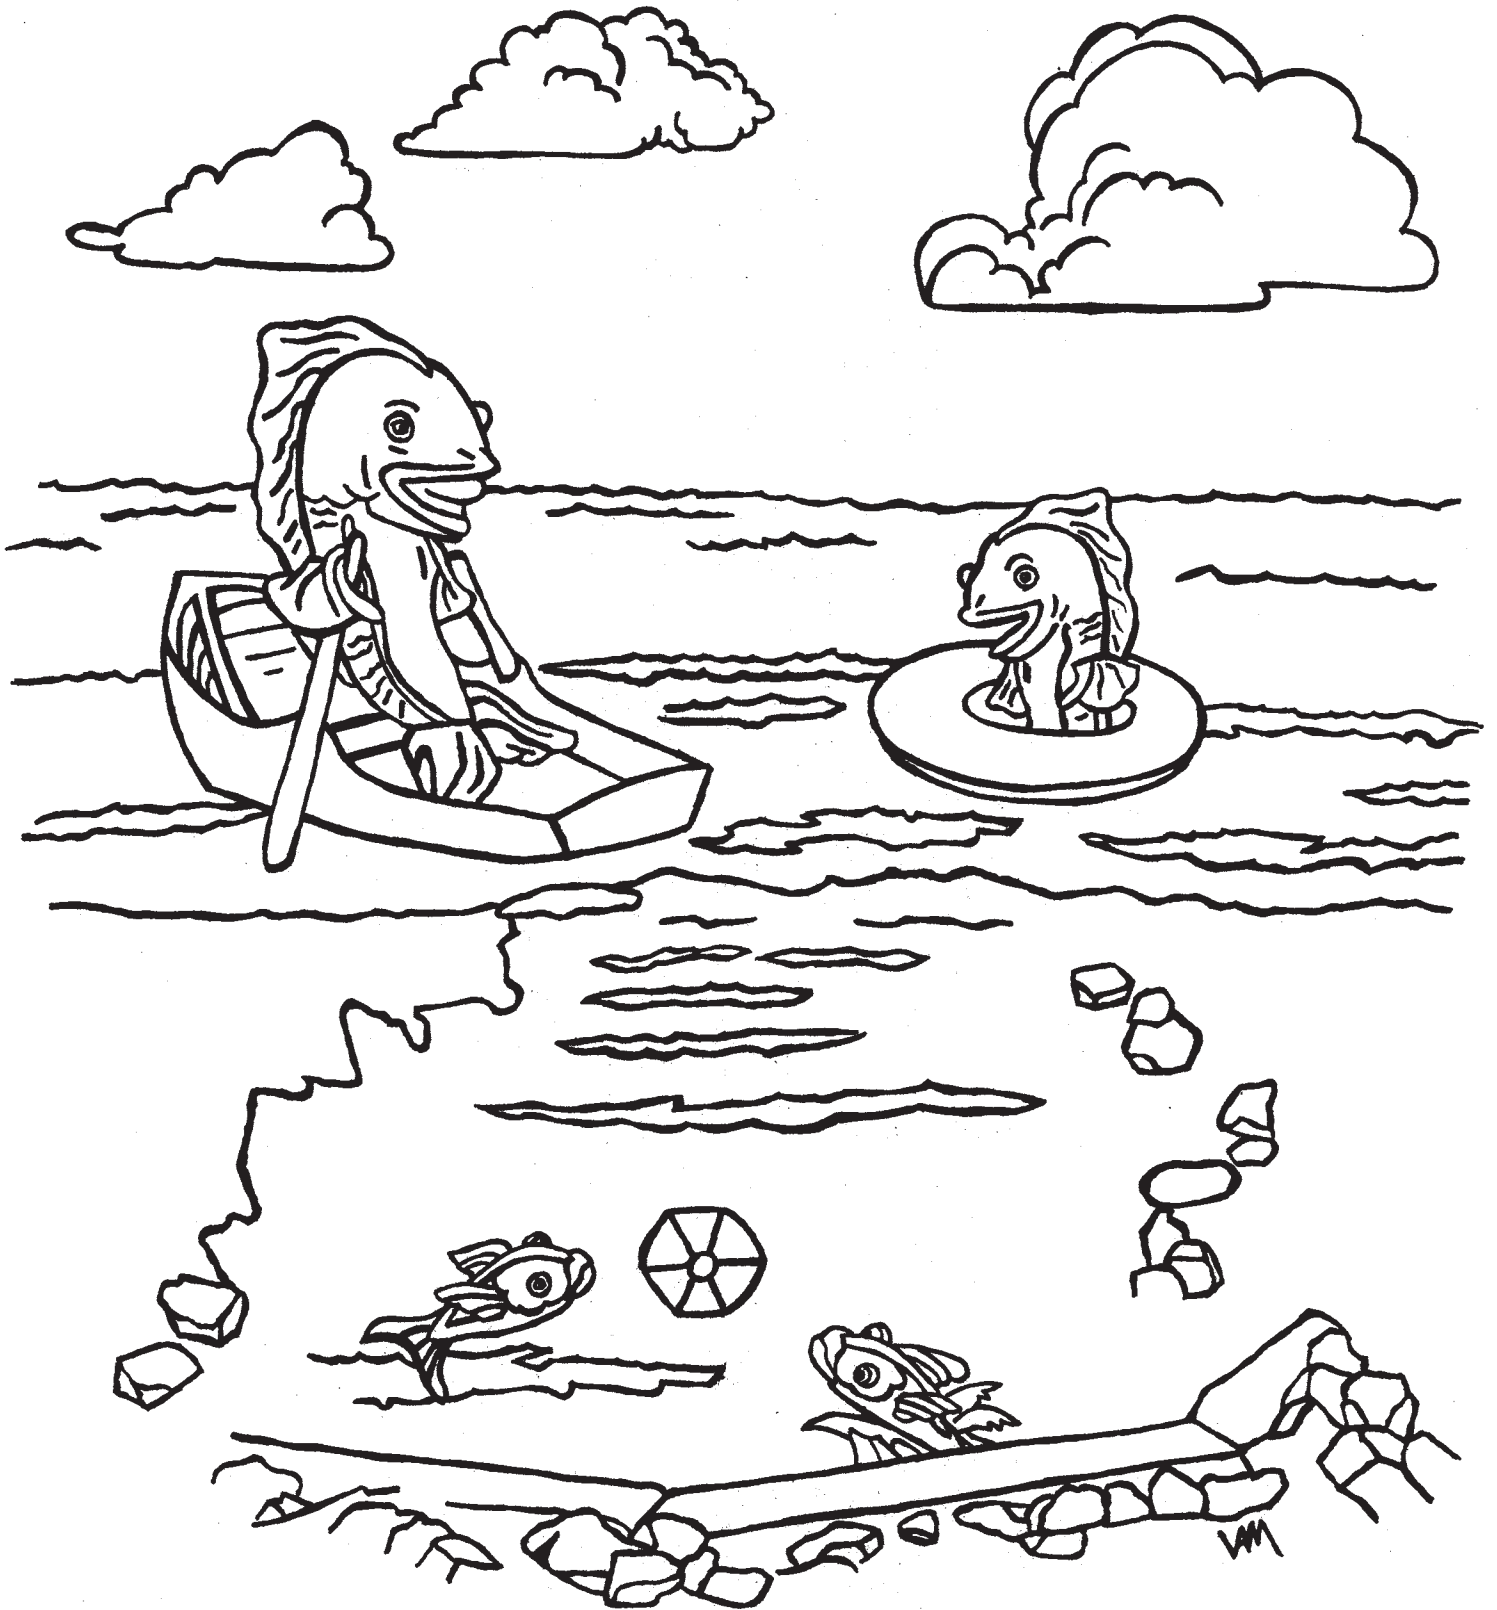

PLEASE
DON'T FEED

GRATE
GS '08

POLLUTION...

... can make fish sick!
